

The Hyron Regional Economic Development Corporation office that served Labrador West and Churchill Falls closed a few years ago. However, they provided us with a scholarship to present to a student attending postsecondary and pursuing a career that followed closely with HYRON's mandate.

HYRON worked to provide leadership in the development and implementation of the Strategic Economic Plan, coordinate support for the development of businesses, support organizations and communities located in the zone, and promoted community education and participation of the public.

If you are interested in this scholarship please see Ms. Smith for more information.
