

Note from StFX for potential **NURSING** students:

We are excited to begin another new year here at StFX and would like to update you on our most recent changes to the Nursing program.??

The Nursing program at StFX has an increasing amount of qualified students applying each year which results in the program filling up very quickly. In order to better accommodate our qualified students and to ensure that each student has an equal opportunity to apply and be accepted to Nursing, we are replacing rolling admissions with a group admission process to review all qualified applicants at the same time. Students will have until March 1st to have their application and transcript submitted and all decisions will be made after this date. Should students wish to be accepted into their second choice while still being considered for Nursing as their first choice, they can let us know on the application or contact us here in the Recruitment & Admissions Office.?

If you have any questions at all about the process, please be sure to let us know.

**Best Regards,**

**Erin Draper**

**Admissions Advisor**
